1) Professional Training Report A.Y. 2018-19

Vidya Vikas Education Society's  
Vikas College of Arts, Science & Commerce  
Department of BVOC MLT  
Professional Training Report for the A.Y. 2018-19

A) Programme Name : BVOC MLT  
(FYBVOC MLT )

B) Programme Code:

C) Name of the Course that include experiential Learning through is Professional Training for as Skill component for FYBVOC MLT

Course Code :

1) FYBVOC MLT

D) Objectives of Professional training

- Gain a comprehensive understanding of laboratory techniques, including specimen collection, handling, processing, analysis, and result interpretation.
- Acquire proficiency in medical terminology, anatomy and physiology relevant to laboratory testing, ensuring effective communication with healthcare professionals and accurate interpretation of test results.
- Understand the principles and practices of quality assurance and control in laboratory testing, including calibration, proficiency testing, quality control procedures, and adherence to regulatory standards and Accrediationeg. ISO, NABL, NABH... etc..
- Familiarize with laboratory instrumentation and automation systems used for testing, calibration, and maintenance, ensuring accurate and reliable results while optimizing workflow efficiency.
- Understand safety protocols and biohazard handling procedures to ensure the health and safety of laboratory personnel, patients, and the community, including infection control, personal protective equipment (PPE), and hazardous waste management.
- Develop proficiency in specimen processing techniques, including centrifugation, aliquoting, staining, microscopy, culture, and sensitivity testing, for various types of samples (e.g., blood, urine, sputum, stool, tissue, fluids).

E) Outcomes of Professional training

  
PRINCIPAL  
VIKAS COLLEGE OF ARTS, SCIENCE & COMMERCE  
Vikhroli (E), Mumbai - 400 083.

Vidya Vikas Education Society's  
**VIKAS COLLEGE OF ARTS, SCIENCE & COMMERCE**  
Affiliated to University of Mumbai  
ISO 9001:2015 CERTIFIED

- ❖ Upon successful completion of the professional training the learners will be able to
  - Be able to perform various laboratory techniques with accuracy and precision, including specimen collection, processing, analysis, and result interpretation.
  - Should implement quality assurance and control practices in laboratory testing, including calibration, proficiency testing, quality control procedures, and adherence to regulatory standards.
  - Be able to adhere knowledge of safety protocols and biohazard handling procedures to ensure the health and safety of laboratory personnel, patients, and the community.
  - Be able to do proficiency in clinical data management, documentation, record-keeping, and reporting of laboratory test results.
  - Should be able to adhere ethical behavior and professional conduct in all aspects of their work, including patient report confidentiality.
  - Be able to develop critical thinking skills to evaluate and troubleshoot laboratory test results, identify potential errors, and propose appropriate corrective actions.
