## Declaration

The college has signed Memorandums of Understanding with medical centres and pathological laboratories to facilitate internship/ professional training of the students of B.Voc. (Medical Laboratory Technology).

However, as the students stay far away from the college, they find it convenient to complete their internship/ professional training in the pathological laboratories situated near their residence.

Though the college has not signed MoUs with these laboratories, the college requests these laboratories to allow the students to work for their internship. The laboratories issue a certificate of internship completion to the students once they complete their internship with them.

These being collaborative academic activities without MoUs, were initially included in the data provided for this metric. However, now the data for such collaborative activities is separately uploaded (the year wise lists of laboratories where the students completed their internships).

The copies of the certification letters from laboratories are uploaded as supportive documents for this data.
