

Vidya Vikas Education Society's
Vikas College of Arts, Science & Commerce
Internal Quality Assurance Cell

2020-21 being the pandemic year, the college had no alternative than functioning online for almost all activities except some very essential jobs to be carried out offline.

As the pandemic hit the country in the month of March, 2020, the IQAC, in consultation with the Principal planned to orient the teaching, non-teaching staff as well as the students regarding the online functioning, right from admissions, teaching-learning, examinations, extra-curricular activities as well as other co-curricular activities.

Teachers were encouraged to complete FDPs/ short term courses in online teaching.

Accordingly, different online orientation sessions and meetings were conducted with all of them separately and a smooth conduct of all the curricular, extra-curricular and co-curricular activities and examinations was thus ensured.

- The admissions happened online as per the guidelines of the affiliating university using the software prepared by MKCL.
- The online meeting platform of Microsoft Teams was used for teaching-learning as well as different international, national webinars and also for the meetings of different units of the college.
- Google classroom was utilised by the teachers for different assignments and notes.
- Google forms were used for conducting internal tests.
- Examinations were conducted online by using the software prepared by Eklavya.
- The annual cultural festival of the college was conducted online.
- Different important days were celebrated and students were encouraged to participate in inter-collegiate competitions online.

The IQAC had planned to conduct a series of Skill Development lectures for students from various streams. The plan was successfully carried out as an interdepartmental activity.

Similarly, the plan of organizing online sessions for teachers on Research Methodology, was successfully implemented with two such workshops conducted online.
