**Academic Year 2022-2023**

Vikas College of Arts, Science & Commerce has partnered with AspireForHer NGO, which, in collaboration with Google, launched the "Grow with Google Professional Certification Program." This initiative, in association with Nasscom Foundation, offers students the opportunity to gain industry-relevant skills through professional training designed by Google, at no cost.

The program not only helps students upskill in in-demand areas but also awards a verified Google certificate upon completion, significantly enhancing their resumes. Additionally, students who complete the program may get the opportunity to be placed in leading companies.

To assist students in navigating the enrolment process and understanding the course offerings, a short orientation session was organized on March 16, 2022. During this session, students were guided on how these certifications would make them stand out in the job market.

The "Grow with Google" program provides a choice of five specializations:

1. Data Analytics
2. IT Support
3. IT Automation
4. UX Design
5. Project Management

Students can learn at their own pace, complete the modules, quizzes, and assignments, and earn a prestigious Google certification, positioning themselves for success in the industry.

**Name of the program:** Think outside the inbox Email marketing

**Date:** 08-11-2022

- Students can complete the certification program at their convenience, with the flexibility to choose **different dates** that fit their schedules.

- They have the freedom to log in and access video lectures anytime, from anywhere, ensuring a seamless learning experience that adapts to their needs.

### Curriculum:

- **Email Marketing Strategy Development:** Learn to define goals, target audience, and choose the right metrics to measure success in your email campaigns.
- **Crafting Engaging Content:** Explore techniques for writing compelling subject lines, personalized messages, and valuable content that resonates with your audience.
- **Segmentation and Personalization:** Understand how to segment your email list effectively and use personalization to increase engagement and conversions
- **Automation and Workflows:** Familiarize yourself with automation tools to create workflows for drip campaigns, welcome emails, and re-engagement strategies.
- **Analyzing Performance and A/B Testing:** Study methods for analyzing email performance metrics, conducting A/B tests, and iterating on campaigns for continuous improvement.

### Duration:

- 1.The program spanned 8 months and comprised five distinct modules, offering a well-structured timeframe for comprehensive learning.
2. Completion of the program depends on each individual student's pace, allowing them to finish the course as per their own schedule within the given time

## MODEL CERTIFICATE OF THE STUDENTS

## EVALUATION

For evaluation, students must secure a minimum of 50% to be eligible for certification. In case they do not achieve the required score, they are given the opportunity to retake the test, ensuring that all students have a fair chance to succeed
